'To ensure a better start' has been the motto and the guiding principle for the **GRUPA KĘTY FOR THE CHILDREN OF THE PODBESKIDZIE REGION** Foundation from the start. The Foundation's objective is to take care of children from children's homes and special educational establishments, for example by helping them to get education, expertise and qualifications, which, in consequence, will give them a better start in their independent adult lives. The idea behind the activities of the Foundation is to gradually abandon state-run children's homes and propagate the concept of foster families.

'For many years now, we have consistently followed our designated path. Our Corporate Social Responsibility Policy, respecting, promoting and developing the 10 Principles of the UN Global Compact, to which we are a signatory, as well as other CSR standards and processes determine the framework and horizons of our actions. I am pleased and proud that the project launched in 2015 has been so popular with our employees and I thank them for their initiative, commitment and would like to congratulate them on its effects! I believe that with such actions we not only support the local communities but also together, step by step, we fulfil our mission, vision and values.
